€ m

Underlying net result advances to €112.3m

Growth in commission underscores our successful wealth management strategy

Total commission
€ m

Commission by segment
€ m

- Commission of Private Banking increases 20% driven by organic AuM growth, acquisitions and higher transaction related activities
- Higher client trading activity leads to a growth of €4m in transaction fees at Private Banking
- At Asset Management, new mandates and market performance fuel growth

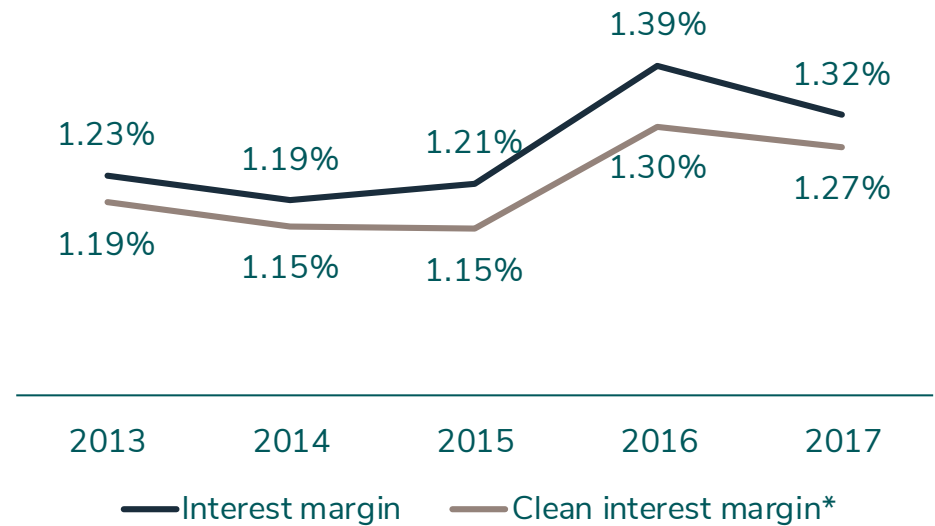

Margin pressure and a smaller loan portfolio are affecting interest income

Interest
€ m

Interest margin (12-mth moving average)
%

- A smaller loan portfolio – mainly due to the run-off at Corporate Banking – caused a decline in interest income in recent years
- Despite active balance sheet management, margin pressure impacts interest income in 2017

* The clean interest margin equals the gross interest margin adjusted for interest equalisation and interest-related derivatives amortisation.
