Van Lanschot Kempen Partnership

- This summer we launched the Van Lanschot Kempen Partnership – a long-term participation plan for key senior employees
- Its purpose is to anchor leadership more broadly in our organisation, to further stimulate ownership and entrepreneurial spirit, and to create more long-term alignment with our shareholders and clients
- The Management Board has invited around 40 colleagues to join them in the Partnership
- While Partners will act as an important sounding board, the Partnership does not affect our governance and management structure
- Investment per Partner: €150k - €500k in five years
- The contributions to the partnership are collected in a so-called ‘fund for joint account’ in order to be able to combine the shares as one voting block and to reflect the collective and collaborative character of the Partnership
- Shares have a lock-up period of five years, allowing Van Lanschot Kempen to provide a discount of 18.5% on the shares
- Annually, a number of colleagues will be invited to join the Partnership
